

AMENDMENTS TO THE SPECIFICATION

On page 35, please replace the paragraph beginning at line 2 through line 8 with the following amended paragraph:

As shown in Fig. 6, a vent 101a as an air releasing hole is provided in the inner surface of the cylindrical portion 101. The vent ~~[[101d]]~~ 101a can extend to the surface of the third mold unit 110. The vent ~~[[101]]~~ 101a allows a molten molding resin to be easily charged into the cylindrical portion 101 and also allows the positioning projection 10 to be easily extracted after molding.
